Web Development: HTML, CSS, JavaScript, React
Database: MYSQL, MSSQL
Other Languages: Java, DS,PHP

Certifications

TCS iON NQT – IT Career Skills Course

Tata Consultancy Services (TCS iON) — Completed September 2025

- Practiced aptitude modules covering numerical ability, pattern recognition, and basic programming logic
- Developed logical reasoning and decision-making skills applicable to real-world IT challenges

Projects

Matrimony app
Flutter, Dart

- Developed a responsive Matrimony application featuring user registration, user list, favourite users, and About Us section, integrated with a local SQLite database for efficient data management.

Quiz Website
CSS, JavaScript

- Designed an interactive quiz platform with dynamic UI elements, text effects, responsive design and also have timer facility for users and 3 modes(Easy, Hard , Medium).

Library Management System
Python

- Developed a command-line based library management system to manage book inventory, borrowing, and return operations. Implemented features like add/delete/search books, borrow/return tracking, and maintained user transaction history using file handling.

Restaurant Management Website
NodeJS, ReactJS, ExpressJS, MYSQL

- *Built a full-stack Restaurant Management System using Node.js, Express, JavaScript, and MySQL with a responsive front-end (React, HTML, CSS), featuring menu, orders, customer records, and secure role-based authentication.*
